GRAETER'S EXPECTATIONS

A Cincinnati favorite lands in grocery stores

Graeter's Ice Cream, the family-made sweet treat from Ohio, can now be found on Marsh Supermarket shelves, making Indy only the second city to carry the brand in grocery stores. (Denver became the first last year, due to its high ranking on the ice-cream-buying index. Yes, there really is such a thing.) CEO Richard Graeter, the fourth generation to head up the company, says that while vanilla is the top-selling flavor for most ice cream brands, and is his personal favorite, black raspberry chocolate chip, with larger-than-average dark chocolate chips, rates number one with Graeter's fans. The brand's popularity can be attributed to its consistency: Made in a slow-churning French pot that folds the ice cream in on itself and prevents air from whipping up the cream, a pint of Graeter's ice cream weighs a full pound—compare that to other ice creams, which weigh as little as 8 ounces. Look for Elena's Blueberry Pie, a new seasonal flavor with real blueberries and chunks of pie crust, on Indy shelves this month.
