Dear Mr. Desserich,

I am delighted to accept the grant for \$35,000 from The Cure Starts Now to support our studies on PI3K Signaling Effectors in Diffuse Intrinsic Pontine Glioma. I am very grateful for this support, which will allow us to pursue basic research into an important signaling pathway in this devastating tumor.

All institutional approvals required to conduct these studies are already in place, and our study will begin in less than six months of the award date. I will gladly provide a progress report to the Board of Directors or Medical Advisory Council when requested.

Thank you again for your support.

Sincerely,

Suzanne J. Baker, Ph.D.
