Keith Desserich  
DIPG Collaborative  
Chair, Board of Directors  
The Cure Starts Now  
10280 Chester Road  
Cincinnati, OH 45215

Dear Mr. Desserich,

On behalf of myself and all the collaborators on this project, I am very grateful for your funding of \$155,000 for our "Establishment of an International DIPG Registry." Thanks to your generous support, we will be able to continue our efforts in establishing this important registry.

- You are welcome to post this letter on your website as acknowledgement that a grant in the amount of \$155,000 has been made to my study.
- All my institutional human protocol (2011-2764: "DIPG Registry and Repository") is in place to conduct this study, which will begin immediately after the award date.
- As the lead researcher, I will oversee the six-month progress report. Please note my contact information below.
- For more information about the protocol and how to enroll in the program, we will forward you the website information as soon as it is available
- We agree that in all future publications and grant documentation the following parties will be named as sponsors of the protocol: "The DIPG Collaboration: The Cure Starts Now Foundation, The Jeffrey Thomas Hayden Foundation, Reflections of Grace Foundation, Benny's World Foundation and Soar with Grace Foundation."
- Please see our attached W-9 Form.

We look forward to continuing to work with you in the battle against pediatric cancer.  
We appreciate all of your support.

Sincerely,

A handwritten signature in black ink, appearing to read 'MFO', with a long horizontal flourish extending to the right.
